*Studio TK's upcoming product launch – Vettore.*

The adjustable lounge line features a stage with customizable seating, including a lounge system with or without a back and added accessories, offering a wide range of specification options. **Vettore**, which means array in Italian, offers countless configuration possibilities to fit within various workplace applications.

The collection alleviates work/life balance by bringing in relaxed and comfortable residential design styles paired with Studio TK's range of design options. The simple stage design supports lounge applications that pair well with any workplace environment. The highly configurable collection is ideal for flexible mixed-use spaces, including intimate lounge settings, lobbies, reception areas, or even large pod areas. Vettore will be available to purchase in September 2021.
