10 Raiz table lamp
Ames, Germany

The handmade, cone-shaped ceramic lampshades from Studiollse draw upon age-old Colombian craftsmanship. The shade's inner glaze catches the light beautifully, shimmering in either white or black. The lamps also feature elements made from the fibres of the Iraca palm. amesliving.de

11 Sandia armchair and ottoman
Fendi Casa, Italy

In a departure from more formal and structured silhouettes, Milan-based Parisian designer Toan Nguyen has crafted an organic, pebble-like armchair and matching ottoman, which come in a range of luxury Fendi fabrics. They are both intimate and invitingly plump, a deliberate response, says the designer, to our search for rest and recuperation. fendicasa.com

The designer's pieces begin as a chunk of clay, which is then cut and shaped as he sees fit. Released during London Design Week, this warm-toned side table is equal parts sculptural and functional. scp.co.uk
